01. Alligator (Sample)

1. Describe the picture in detail. (Sample response)

This is a picture of two men in red outfits performing an alligator show. The man on the left is putting his hand inside the alligator's mouth while the man on the right is holding on to the alligator's tail. In the background, there are foreign languages written on a panel which is located at the top of the wall. Behind this wall, there are audiences looking at the show. Some are covering their eyes in fear. I think this picture gives a sense of a quiet and tense atmosphere.

2. Tell me anything you know about the animal. (Sample response)

Alligators have hard, sturdy leather and sharp teeth. They can live in and outside of water. Alligators are carnivorous animals. Their hunting technique involves biting down on the prey and spinning on it to chunk off the prey's flesh. I saw alligators at the zoo when I was little. I remember being frightened and wanting to run away.

Ideas for description	
Vocabulary	circus, performance, crocodile, foreign language, panel, audience, scared, frightened, worried, nervous, sleeveless, shorts, zoo, pull, dare, risk, shallow, sturdy, leather, carnivorous
Expression	hold on to, cover one's eyes, put one's hand inside

02. Ant (Sample)

1. Describe the picture in detail. (Sample response)

This picture was taken in a forest. Ants are carrying a twig on top of some rocks. One ant is standing on top of the twig, while others are carrying the twig to another rock on the opposite side. In the top left corner, the sun shines downward. I can see some trees and grass in the background of this picture. This picture looks like ants are placing a wooden bridge.

2. Tell me anything you know about the animal.

Ants are tiny. They have antennas and six legs. Even though they are small, they can carry something that is fourty times heavier than their weight. Ants can be seen everywhere, especially during spring and summer. Although they may be small, I get scared of ants and run away whenever I see them.
